

CappOrigami™ Reagent Reservoirs

Fold, pour and pipette...!

- . V-shape ensures full usage of all reagents***
- . Flick-up design saves storage space***

The CappOrigami™ represents a innovative way of thinking when it comes to reagent reservoirs as subsequently described:

Perfect V-shape

The shape of the reservoir along with the stiffness of the material used ensures that the reservoir forms a sharp V-shape at the bottom. This makes your pipetting easier and also enables you to save on reagents as you only have to pour the amount needed into the reservoir.

Flat when stored

The CappOrigami™ reservoirs are packed as flat sheets. This way, they take up considerably less room in storage.

Easy to use

To use a CappOrigami™ reservoir, simply flick it up by pushing the sides together, which is very easy due to the prefolded lines. As soon as the CappOrigami™ reservoir reaches the proper shape you can pour liquid into the reservoir and start pipetting. The folds and the polypropylene material used assure that the reservoirs stay upright once you have folded them into the proper reservoir shape.

Take a flat CappOrigami™ reservoir sheet out of the pack.

Push the two outer sides against the middle to flick the CappOrigami™ reservoir into shape.

Push the end triangles in to make the CappOrigami™ reservoir ready for use.

We take pipetting to perfection.

Ordering information:

Code	Description	Unit	Packaging
CA40505	30 ml reservoirs for 8- and 16-channel pipettes	Pack/50	Non-Sterile
CA40506	30 ml reservoirs for 8- and 16-channel pipettes	Pack/5x10	Sterile
CA40510	40 ml reservoirs for 12-channel pipettes	Pack/50	Non-Sterile
CA40511	40 ml reservoirs for 12-channel pipettes	Pack/5x10	Sterile

CappAero™ Multi

Standard	SoftLine	Type	Volume	Colour
10-8AZ	SL10-8AZ	8-channel	0.5-10 µl	○ White
50-8AZ	SL50-8AZ	8-channel	5-50 µl	● Red
200-8AZ	SL200-8AZ	8-channel	20-200 µl	● Yellow
300-8AZ	SL300-8AZ	8-channel	30-300 µl	● Black
10-12AZ	SL10-12AZ	12-channel	0.5-10 µl	○ White
50-12AZ	SL50-12AZ	12-channel	5-50 µl	● Red
200-12AZ	SL200-12AZ	12-channel	20-200 µl	● Yellow
300-12AZ	SL300-12AZ	12-channel	30-300 µl	● Black
02-16AZ	SL02-16AZ	16-channel	0.2-2 µl	● Violet
10-16AZ	SL10-16AZ	16-channel	0.5-10 µl	○ White
50-16AZ	SL50-16AZ	16-channel	5-50 µl	● Red
