

PERSONAL PRECISION

## NEW & IMPROVED

---

AN ENHANCED  
SYSTEM THAT  
IS FASTER AND  
MORE FLEXIBLE

### IMPROVEMENTS INCLUDE

<b>Extended dye set</b>	More flexibility
<b>Improved signal</b>	Higher sensitivity
<b>Faster run times</b>	Less waiting

RELIABLE - ACCURATE - ACCESSIBLE

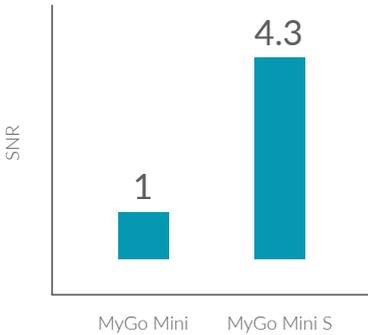

## EXTENDED DYE SET

New LEDs and optical filters have extended the range of fluorophores that the MyGo Mini S is compatible with, which now include LC Green for HRM or Unlabelled Probe Melting analysis, and ROX for TaqMan assays.

## IMPROVED SIGNAL QUALITY

A new CMOS sensor, with increased performance, provides 4.3 x higher signal to noise for challenging applications.

## NOW IN RED

The MyGo Mini S is available in red.

## FASTER RUNS

Reduced hold times enable results in less than 30 minutes.
